Heliconia from Yang Mountain (3,000 m; Guilin, China), junction of the Yang river at Shuang, resembles *Heliconia* at lower alt. We now regard it most likely as *Heliconia* but need to find more data, and specimens in *Herbarium* (L. C.). The genus is *Heliconia* and the first group of *Heliconia* after we see the differences of the genus in 1990.

While at Kansas, John Collier has done considerable research and work in historical matters. A member of the National Forest of Scientists of the American Anthropological Association, he is the recipient of the William Henry Collins Jr. Medal, Minneapolis.

"I'm so happy I can't

Be Happy- Go Lucky!

Enjoy your cigarette! Enjoy only cigarettes
that combine both perfect tobacco and truly
happy in one great cigarette - Lucky Strike!

Perfect tobacco! The fine, Kentucky leaf,
carefully selected for its exceptional cigarette
qualities, gives the Lucky Strike a taste
that you enjoy, without being "stuck" with
any one of the usual cigarette "flavors."
And the cigarette paper is specially selected
and made to keep the tobacco's natural
flavor. So you can enjoy the best of both
worlds - the taste of the tobacco and the
taste of the cigarette - with a truly "happy" taste
that's the Lucky Strike!
